Professional Summary

React Native & Full Stack Developer with 2.5 years of experience building and delivering high-quality mobile and web applications. I am skilled in React Native, React.js, Node.js, and Firebase, with a focus on creating fast, scalable, and maintainable app architectures. Experienced in state management (Redux, Redux Toolkit, Context API, Zustand), RESTful and GraphQL API integration, and backend development using Node.js and Express. Strong collaborator with cross-functional teams, ensuring seamless coordination from design to deployment. Eager to learn and explore new tools and technologies to create better mobile experiences.

Professional Experience

06/2025
Islamabad

React Native/Full Stack Developer
AiMarkLabs

- Developed and maintained cross-platform mobile apps using React Native, TypeScript, and Redux Toolkit.
- Built and integrated Node.js / Express APIs with MongoDB and Firebase backends.
- Added real-time chat, maps, notifications, and deep linking via Socket.io and Firebase Cloud Messaging.
- Collaborated with designers, QA, and backend teams to deliver polished, production-ready releases.
- Published and maintained production builds on App Store and Play Store.

01/2024 -06/25
Multan

React Native/Full Stack Developer
DynamixSol

- Created and optimized mobile applications using React Native, Redux, and Context API.
- Integrated GraphQL / RESTful APIs and improved state management for responsive UI performance.
- Worked closely with cross-functional teams in an Agile/Scrum environment to meet sprint goals.

01/2023-01/24
Remote

Freelance Full Stack Developer
Upwork

- Delivered end-to-end mobile apps for clients using React Native and MERN stack
- Used Zustand and Redux for scalable state management.
- Built and integrated Node.js / Express APIs with MongoDB and Firebase backends.
- Collaborated directly with international clients to define project scope and deliver high-quality solutions on time.

Education

10/2020 – 10/2024 **Bachelor of Science in Software Engineering**
Islamabad, Pakistan *Comsats University, Islamabad*

Projects

EvoloAI

Role: React Native / Full Stack Developer

- Developed a student-focused mobile app enabling users to apply for jobs, attend classes, chat, and participate in events.
- Implemented real-time chat and notifications using Pusher and Firebase, managing state with Redux.
- Built a scalable backend with Node.js, Express, and MongoDB, integrating RESTful APIs for seamless data flow.

EvoloAI Instructor

Role: React Native / Full Stack Developer

- Created an instructor/admin app for managing classes, events, chats, and spotlight features.
- Implemented role-based access and admin controls for secure management of content and users.
- Used React Native, Redux, and Pusher for responsive UI and real-time updates.

TheEyeApp

Role: React Native Developer

- Built an app to list public events, schedule activities, and view venues with integrated maps.
- Implemented real-time route suggestions, traffic alerts, and alternative routes using Pusher, Redux, and map APIs.
- Enhanced UX with offline map caching and optimized navigation features for mobile users.
